### STRIKE FOR THEIR PAY.

Six Hundred Kentucky Miners Have Not Seen Money For Months.

Central City, Ky., Oct. 16.—A strike is now on against the coal miners of the Western Kentucky district. It is confined to the smaller mines, but the movement is spreading. There are now about 600 men out at different places, as follows: Island, 80; Drakesboro, 100; Bevier, 130; Williams, 75; Carbondale, 75; Hillsdale, 75; Powderly, 75. It is confined to pick miners and has not been taken up by machine miners. The men demand three cents a bushel for mining coal instead of the present rate of two and one-half cents, and \$1.25 instead of \$1 for entry work. The men average about fifty bushels each a day.

The principal grievance, however, is the fact that the companies do not pay off their men regularly, some of them being three and four months behind. They use the "company store" plan of paying men, which is very unsatisfactory to the miners. The men are now demanding a regular pay day and cash payments every month.

The mines of the Central Coal and Iron Company at this place and Henderson are paid off regularly, as desired, but delegations are here trying to get the men to go out on a sympathetic strike, and a convention will be held here Tuesday by delegations from the different mines. There are several men here now, some of them showing statements of credits from their employers for August and September, but who had to walk here, not being able to get anything from their companies but merchandise.

Senator Bronston at Cadiz.

At the request of the Campaign Committee that Senator Bronston be sent to Trigg county, his appointment for this city was transferred to Cadiz; and the popular Bluegrass orator addressed a large crowd there yesterday. He spent Sunday in this city, accompanied by Mrs. Bronston. They were the guests of Mr. and Mrs. Phil Gaither. Senator Bronston returned from Cadiz last night and will leave for Princeton on the early train this morning, and will to-day hold a joint discussion with ex-Congressman Josiah Patterson, of Tennessee, who is speaking in the interest of Hindman.

Col Tom Hanks Passes Away.

Lawrenceburg, Ky., Oct. 15.—The Hon. Thomas H. Hanks, aged seventy-four, died at noon of liver trouble after a long illness. He was known as the patriarch of the Kentucky legislature. He had served under three constitutions, served six terms in the general assembly, the first in '49, and was a member of the last constitutional convention. He was married in 1858 to Miss Margaret Meyers, who preceded him to the grave last December. He was always a Democrat, and first voted for James K. Polk in 1844.

Yesterday's Fever Report.

Yellow fever has made its appearance at Bay St. Louis, Miss. Seven cases and one suspect have been officially reported. Except at New Orleans the fever seems to be dying out for lack of material. At New Orleans Sunday there were five deaths and twenty-four new cases. Owing to a shortage of funds the Board of Health at New Orleans has been compelled to relax its vigilance, and the force of guards is being reduced. Frost, however, will soon put an end to the ravages of the disease. There have been nearly 2000 cases to date.

Death of a Great Editor.

New York, Oct. 17.—Mr. Charles A. Dana, editor of the New York Sun, died at three o'clock this afternoon at Dorosis, his country place on West Island, near Glen Cove, L. I. Mr. Dana was born in Hinsdale, Cheshire county, N. H., August 8, 1819. By descent on both sides of the house Mr. Dana came from the stout-hearted, rugged-minded New England stock that bred men like himself and his journalistic foster father and sponsor, Horace Greeley, also a native of New Hampshire. Four children, one son and three daughters, survive Mr. Dana. They are: Paul Dana, ex-park commissioner, and now actively connected with the Sun; Mrs. William H. Draper, Mrs. J. W. Brennan and Mrs. William Underhill, a widow.

Edward Langtry, husband of Jersey Lily, died in an insane asylum in England.

Believed to be Yellow Fever.

Dr. J. N. McCormack, secretary of the State Board of Health, was called to Guthrie Friday afternoon by the physicians of that place to investigate a supposed case of yellow fever. The patient was a white man and gave his name as Arthur Boschen. He was found Friday morning lying under the L. & N. water tank, and was refused admittance to any boarding house. The man claimed Pennsylvania as his home, but said he had been at work in a stove factory at Stuart, Tenn., for some weeks. When he was taken sick he boarded a train and beat his way as far as Guthrie, where he was discovered by some of the train crew and put off. The physicians of Guthrie found the stranger to have all the symptoms of yellow fever. Dr. McCormack left with his patient Friday night for Louisville, where he was placed in a hospital. It is believed by many that Boschen is a tramp, directly from the yellow fever district. There is considerable excitement over the case.

Oklahoma, now seven years old, has a population of 300,000.

### MILLION FOR TWO EYES.

From Far Away India Comes a King of Healers to Work on a Cross.

New York, Oct. 16.—A mysterious stranger, Dr. Guelph Norman, a physician from far away India, has traveled more than half way around the earth to try to restore sight to the blind eyes of the multimillionaire, Chas. B. Rouse. The actual treatment consumed but fifteen minutes.

Mr. Rouse reclined in a big easy chair in his private office, and the long, weird looking doctor from India commenced operations by feeling his pulse. Then he looked upward and muttered what sounded like a prayer. The doctor gazed earnestly into his patient's eyes and proceeded to rub a colorless liquid over the lids and temples with mysterious motions. He stroked the back of the head. Each motion was timed.

When the doctor's treatment was over Mr. Rouse could see the doctor's hand enough to tell what it was when held ten inches from his eyes. At fourteen inches the millionaire could only tell that there was some sort of an object before him.

Dr. Norman says he will restore sight to the eyes of the patient within four weeks, and, though he has been at work for several days, the fact was not generally known.

The fact that Rouse offers \$1,000,000 or more to be able to see as other folks do reached Dr. Norman in his home in India. He is an Englishman, but has lived in India for many years. He is not an M. D. according to medical ideas, but he claims to be skilled in arts of optical cures, which are almost as old as civilization, and the one now employed on Mr. Rouse is said to date back as far as the Vedas, the book of sacred and historic writings, embracing the ancient philosophy of the Aryans.

DUMMY STRIKES 'EM HARD.

Verdict of \$7,500 Against the L. & N. Company.

The damage suit of Parker McCombs, col., against the L. & N. Railroad Company for \$25,000 damages was decided late Saturday evening and a verdict returned for the plaintiff in the sum of \$7,500. The trial lasted several days and was one of the most important cases tried so far. McCombs is a deaf mute and prior to his having his legs cut off below the knees was an athletic man who made a living as a barber. His attorneys were Feland & Feland, Wood & Wood and J. T. Hanbery. An appeal will be taken.

"Dry" Laws Still in Force.

Frankfort, Ky., Oct. 15.—In the Court of Appeals this morning Chief Justice Lewis handed down an opinion which knocks out the sensational construction that was put on an old opinion, and by which it was thought most of the local-option towns of the State became "wet" September 28 last. He virtually holds all these are as "dry" as they ever were. The opinion is in the case of Stauffer vs. Commonwealth from Carter county. It explains the old opinion of Judge Hazelrigg's, in which he says he didn't mean that all these old local acts would stand repealed September 28, but that on that day the penalties provided in all these local acts must become uniform. This uniform penalty is now in effect, he says, and consists of a fine of from \$100 to \$200 for each violation of any of these local acts which do not otherwise conflict with the Constitution and which are still in force.

Escaped From the Chain Gang.

Titus Bibb, col., serving a sentence on the Guthrie chain gang for gaming, made his escape in a peculiar manner last Friday. He was shackled with a ball and chain and was at work near the railroad. As a freight train passed by Bibb suddenly dropped his shovel and throwing the ball and chain over his arm, ran under a box car and swung himself upon the brake rods. He landed safely and waving his hand at the other members of the gang, was soon out of sight. It is understood that a reward has been offered for his capture by the Guthrie authorities.

Lips Paralyzed by Kissing.

A Berlin cable dispatch to the New York Sun says: "The Munchener Nachrichten records the experience of a young German who undertook to establishing a kissing record. He gained this sweetheart's consent, the terms being that he should take 10,000 kisses from her lips in ten hours, with a brief interval for refreshments every half hour. Umpires were appointed and the attempt to make the record began. "The young man scored 2,000 kisses in the first hour and 1,000 in the second. He had reached 750 in the third hour when his lips became paralyzed and he became unconscious."

Douglas Balte, a negro leader, was lynched at a small settlement on Bayou Barataria, about fifteen miles from New Orleans. His offense was running the quarantine gauntlet.
